25X1X SUPPLEMENT TO

1. An airfield was located about 3.5 miles south of KIROVABAD (46°22'E/40°42'N), 1,300 feet west of the road to KHANLAR. About 2 miles south of the field were the first foot-hills of a mountain-range. Estimated field dimensions: east-west direction, 6,300 feet, north-south direction, 5,500 feet. Buildings and hangars were located on the eastern field border. There was intensive flying with twin-engine aircraft which resembled the Me-410.
2. Fellow PWs working in a brickyard beyond the RR track on the northern town border of KIROVABAD stated that they saw an airfield about 2 miles northwest of their working site.\*\*
